

## AIR-3 UHF Mobile Antenna Broad-Band

806~1900MHz Cellular telemetry covert antenna, broadband design for radio

Wireless systems. The covert design of low profile patch radioelement sealed with a rubber enclosure can be hidden in a secure area in the vehicle. The antenna is harness with a 3meter double-shielded RG174/U to optimize loss and isolate outside interference to the radio

### Applications

- Wireless Telemetry
- AMPS
- CDPD
- Voice & Data radio
- PCS
- DCS
- S.C.A.D.A Radio
- DATA-TAC
- Cellemetry
- Wireless Modem
- iDEN
