

2.4GHz Panel 8 dBi Antenna

8 dBi Panel Antenna with 2.4GHz Frequency

This panel antenna delivers extended access point range in a single floor environment ideally positioned in the corner of a building. It functions from point-to-point so that you can wirelessly connect LANs between the buildings in a campus-type environment. It provides multiform transmission when placed on a ceiling, as the higher power output extends the range through typical flooring materials

Specification:

Technical Information	
Item No.	PA-2450-08
Frequency	2400-2483 MHz
Gain	8 dBi
Polarization	Vertical
Beamwidth degree	Horz.75° Vert.38°
VSWR	$\leq 1.5:1$
Impedance	50 Ω
Dimensions	
Size	L107 x W94 x H30 mm
Weight	365 g
Connector	N - Type / Female
