

AIR-3 UHF Mobile Antenna Broad-Band

806~1900MHz Cellular telemetry covert antenna, broadband design for radio

Wireless systems. The covert design of low profile patch radioelement sealed with a rubber enclosure can be hidden in a secure area in the vehicle. The antenna is harness with a 3meter double-shielded RG174/U to optimize loss and isolate outside interference to the radio

	Applications
	<ul style="list-style-type: none">● Wireless Telemetry● AMPS● CDPD● Voice& Data radio● PCS● DCS● S.C.A.D.A Radio● DATA-TAC● Cellemetry● Wireless Modem● iDEN
